## ASRS Retiree Medical / Dental Insurance Enrollment

7%

### Step 1 of 14

This health insurance enrollment application will allow you to:

- Add or remove a dependent from your coverage.
- Enroll in an ASRS medical and/or dental insurance plan.
- Make a change to your current ASRS medical and/or dental insurance coverage.
- Cancel your current ASRS medical and/or dental insurance coverage (to do this, visit the [Health Insurance Details](#) page and click the 'Remove Coverage' link).

**Note:** If you would like to enroll in or make changes to coverage you receive through your former employer, please contact your former employer for further instructions.

Before you enroll, the ASRS recommends that you research each of the various coverage options that may be available to you, including:

- Your spouse's or former employer's group health insurance plan.
- Private health insurance through the federal health insurance exchange or directly through private health insurers.
- Health insurance offered by your new employer (if you are a new retiree or planning to retire soon) if they will allow you to remain on their group health plan (through COBRA or as provided by your new employer (if you plan to return to work).
- Health insurance coverage offered through the ASRS Retiree Group Health Insurance plan by reviewing our [Health Insurance Enrollment Guide](#). If you require a print copy of the Enrollment Guide, please send us an email or call us. You may also send us your request via Messages to request one.

After your research, you are encouraged to compare your estimated out-of-pocket costs for premiums, co-payments, and deductibles against the benefit and present value of the ASRS plan. Dependents will require before deciding to enroll.

Click the Continue button to begin

# *Premium Benefit*

*Offsets the cost of your  
insurance premium*

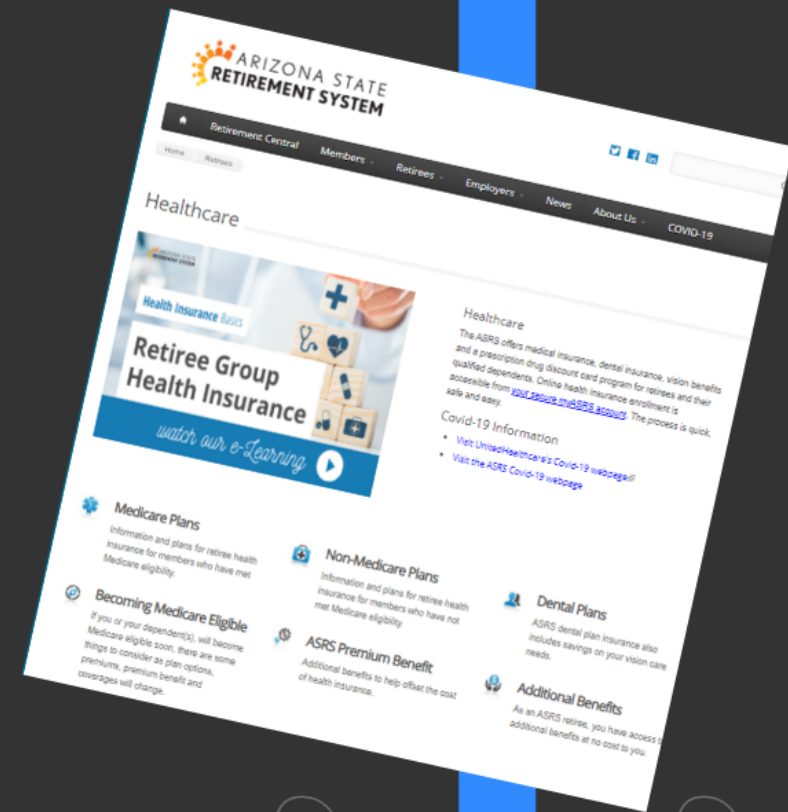

**Insurance must be through:**

- ASRS Employer (not subsidized)
- COBRA
- ASRS Group Insurance
